ABOUT TATA MOTORS PROLIFE

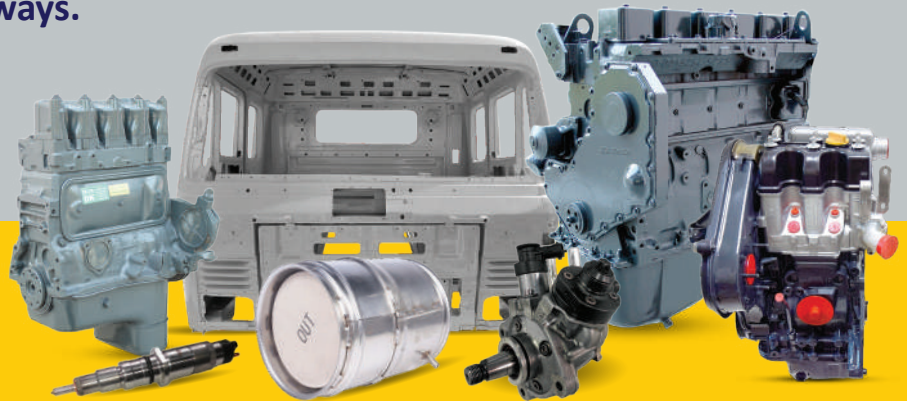

Tata Motors Prolife offers a dependable remanufactured solution engineered to OEM standards.

Prolife aggregates and parts are systematically remanufactured through a rigorous, factory-controlled process. Each unit is carefully dismantled, inspected, re-engineered with critical wear parts replaced, precision-tested, and validated to meet Tata Motors' performance benchmarks.

The result is a high-quality, cost-effective alternative that delivers reliability, durability, and peace of mind, backed by Tata Motors expertise and warranty support.

By extending the life of critical vehicle aggregates, Prolife helps reduce downtime, optimize operating costs, and promote sustainable reuse without compromising on performance.

**Smarter lifecycle management.
Genuine assurance. Better Always.**
